

Information flyer for transport partners
- Dieselflex variant 5 national -

- 1. targets**
 - > hedging against diesel price volatility = compensating for price fluctuations
 - > transparency and traceability
- 2. source**
 - > Aral Dieselpriest database online:
 weekly retrieval of average prices in Germany
<http://www.aral.de/de/retail/kraftstoffe-und-preise/kraftstoffpreise/kraftstoffpreis-archiv.html>
- 3. basics**
 - > at the end of the month, the average diesel price is calculated
 - > this monthly average is compared with the diesel price base
 - > the diesel price basis has its mean value in the diesel price of the month December 2014
 - > per 5 Eurocent deviation of the monthly average price from the diesel price basis the remuneration is adjusted upwards or downwards by the specified amount
 - > determination by max. middle of the 2nd week of the following month for the previous month
 - > applies from the date of discovery to the date of discovery in the following month
