## Information for Transport Partner

### - Handling of customs and accompanying documents before shipment-

For transports to Tunisia, you have to give the customs documents to the harbour handler and to put the accompanying documents onto the loading platform **before shipment**.

**Because of this please note the following and instruct your drivers:**

#### 1. Customs documents

- ▶ export accompanying documents EX and eventually T1
- ▷ pass to the harbour handler

#### 2. Accompanying documents

- ▶ CMR, EUR1, EUROMED, delivery notes, invoices, production documents, samples
- ▷ put onto the loading platform before sealing and handing over the trailer; if this is not possible, in the plastic document box on the front wall or the tube on the support leg.

If these requirements are not implemented, we will charge you 100.00 € for each special shipment of the documents. If documents are lost, we will also charge you 100.00 € per document for the creation of duplicates.
