## Flyer of information for transport partners - Swap body insurance -

On all our international transport routes the Meyer & Meyer swap bodies are in use. With your vehicles you transport these swap bodies.

For all swap bodies we cover **insurance** for you. For a solid coverage for you and us this is necessary because of the high number of swap bodies and damages. Without this coverage we cannot make these transports and ensure your and our employment.

The swap body insurance covers the following services:

- Payment of premiums and handling of claims by Meyer & Meyer
- No recourse against you
- No contribution
- Charging of the insurance premium with the credit notes

In case of damage we only need concretely information about the cause of loss.

If damages are caused by gross negligence of the driver we are forced to hold you liable directly and to charge the contribution to you.

Per swap body this insurance amounts **€ 11,50 / month**, so € 23,00 per XXL-truck and trailer for swap bodies per month. This insurance will be charged in the middle of each month with the credit payment.
