

**Meyer & Meyer telematics**

option for transport partners 1 : The telematics-app

**Telematics-app by mO mSM mobileServiceManager**Requirements

- Hardware:** smartphone or tablet with GPS
- System software:** Android, at least 2.3
- Data card:** approx. 10 -15 MB  
when used abroad incl. roaming
- Device:** e.g. Samsung Galaxy

- Costs:** € 23,50 per month  
incl. access to the telematics portal for the track and trace of your vehicles,  
dates of order and transmission of messages
- payoff monthly per accounting

**Adjustment:**

1. Send us the numbers of your vehicles to:  
bpoticket@meyermeyer.com  
or call us, tel.: +49 541 9585 – 996

2. You will receive the login details  
(client number, username, password)

3. Download the app with your smartphone or tablet free of charge in the  
Google Play Store – search for „mSM mobileServiceManager“

4. Log in

5. Make sure that GPS is activated on the device (no further costs will arise)

**Benefits:**

You can equip your vehicles with telematics according to our requirements with a customary smartphone or tablet with system software Android. Your driver will only need one device for telephony and telematics. The app works without disturbance. If there are disturbances because of the hardware you can substitute your device cheaply and rapidly at your vendor.

If you need more information you can write or call us!
